

SHERPA Project

*“Support ad-Hoc to Eastern Region
with Pre-operational Actions on GNSS”*

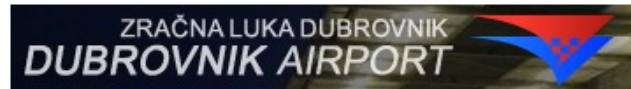

Final User Forum

- 1. Introduction and Welcome***
- 2. Agenda, Scope and Objectives***

Dubrovnik, 17th October 2013

Introduction and Welcome

- ❑ **Welcome** to the ***SHERPA Final User Forum*** in Dubrovnik (Croatia).
- ❑ This ***Final User Forum*** is hosted by the European GNSS Agency (GSA) and the SHERPA team and being ***SHERPA*** an EC FP7 project managed by GSA.
- ❑ **Special thanks** to ***Crocontrol and DBV airport*** for the support and hospitality to organize and hold this event.

Scope and Objectives

- ❑ The **origin** of organizing this **Final User Forum** comes up from the detected interest and contacts made during the project execution with different Eastern European GNSS stakeholders concerning:
 - *EGNOS adoption activities;*
 - *Implementation of EGNOS based operations (in particular LPVs).*

- ❑ **SHERPA Final User Forum tries to** give answer to the set of identified needs/doubts/interests by presenting:
 - *The methodology, lessons learned and main outcomes/achievements of the project;*
 - *The real experience of ANSPs concerning EGNOS implementation activities at national level:*
 - *The five Eastern European ANSPs participating in SHERPA and*
 - *other two, from Spain and Croatia, as expert and new comer;*
 - *The updated view about EGNOS, steps to follow in EGNOS adoption and the existing initiatives towards the EGNOS implementation;*
 - *The future plans and schemes which will try to cope with and give response to most of these needs and areas of interest.*

Scope and Objectives

- ❑ The Final User Forum should be a catalyst to:
 - *Establish coordination and references among the relevant Eastern European GNSS stakeholders;*
 - *Boost the needed activities for EGNOS adoption and implementation at national level;*
 - *Accelerate the associated processes in a regional coordinated basis.*
- ❑ The material of the Final User Forum will be distributed among the attendees and uploaded to the SHERPA website <http://sherpa.essp-sas.eu/>.
- ❑ Although not being part of the project baseline, the FUF material will be considered part of the overall set of guidance material of SHERPA.
- ❑ A report of the event will be generated as summary of the main outcomes, discussions and topics presented.

Please, fill in and sign the attendees list.
